

The Fever: A Complete Account of How a Team From Detroit Rocked The Basketball World in 2004—Told by a Fan

Every year a new champion is crowned in the world of professional basketball. But few seasons feature a champion that has countless ups and downs, key coaching and player changes, dominating defensive play, and one player who is criticized heavily early in the season that later becomes a hero, making one of the greatest plays in team history. Detroit experienced all these things during the 20032004 season and along with it, won the teams third ever championship. David Lawless was there, like he always is every year, following this team at the arena; on TV; even occasionally on the road. Its quite clear that he has The Fever. In The Fever, Lawless chronicles what its like to be a fan of a team that plays such an exciting style and ends up winning the games ultimate prize. True fans of the team and true fans of the sport itself, will relate to his use of first names, always, when describing the players and the exclamations of emotion that come out during the middle of a big playoff game. Each game is discussed in the same language and expressions that fans use. Theyre all here: each and every game analyzed like a coach would, but described with the passion of a true fan.
