

Beating the Rush Hour Blues: 60+ Time & Money Saving Strategies to Get Ahead of Traffic in ALL Situations

Beating the Rush Hour Blues is just what the doctor orders for taking the headache out of driving in competitive traffic. In this thorough yet concise manual, veteran driver Brad Anderson gives the prescription for getting out of jams, cutting corners (literally) and making time in all road situations from clogged urban arteries to open interstates, and from in-town holiday fiascoes to rural mountain switchbacks. Anderson even shows how to save on those exorbitant east coast tolls. A must read for the harried executive, Sunday shopper and family vacationer alike, stressed out by the daily grind.
