

## Emilia and Romagna: Lands of Wine and Diversity

In the 10th addition to Carlo Cambi's Great Wine Regions of Italy, intrepid author Andrea Zanfi travels to the borderland between north and south Italy to examine the divide between two very different styles of winemakers and winemaking: the Lambrusco craftspeople of Emilia and the famed Sangiovese houses of Romagna. Never before has such an intimate and sprawling telling of the history, techniques, philosophies, and creations of these vastly different neighbors been committed to print.
