

## A Course in Trading: FT Traders Masterclass Series

This work was originally published in 1934 as a yearlong course in analysis and was a confidential document available only to subscribers and clients of the Wetsel Market Bureau. The Jerry Favors Analysis recently gave the contents of the course a top-5 status. The 26 chapters contain a series of lessons; each dedicated to a single aspect of chart analysis - some unknown today, others still employed in their original or variant forms.
