

Ill Shave My Head Too

Spencer was diagnosed with Stage IV neuroblastoma at the age of six. Tracey and Steve did what most parents try to do: provide a fun and stimulating environment for their kids to grow in and reach their full potential. Foster did what brothers do: he offered up his bone marrow and rode shotgun in the all-terrain electric assault vehicle. Scupper did what sinister Portuguese Water Dogs do: he tried to eat the house one piece of furniture at a time and displace the owner from his spot in the bed. And Spencer? Spencer played soccer, sailed boats, built windmills, skipped a lot of school and developed a serious teenage drug habit. Along the way, Steve wrote this deeply personal, hilarious, and utterly moving collection of stories. They spilled out of his brain and onto the keyboard as there is not enough room for happy optimism and utter terror to coexist. Ill Shave my Head Too is an incredible balance between readability, humour, and emotional impact.
