

Against Football: One Fans Reluctant Manifesto

In *Against Football* Steve Almond details why, after 40 years as a fan, he can no longer watch the game he still loves. Using a synthesis of memoir, reportage, and cultural critique, Almond asks a series of provocative questions: Does our addiction to football foster a tolerance for violence, greed, racism, and homophobia? What does it mean that our society has transmuted the intuitive physical joys of childhood--run, leap, throw, tackle--into a billion-dollar industry? How did a sport that causes brain damage become such an important emblem for our institutions of higher learning? There has never been a book that exposes the dark underside of Americas favorite game with such searing candor.
