

Womanhood: Shattering False Notions

One of the most disheartening things amongst our women in the Body of Christ is the lack of submission to Godly authority. This book aims to bridge the gap between our older women and younger women, shattering mistaken notions and shedding light on what actually took place in the garden of Eden. In this book Eniola is very transparent, telling the story of her dysfunctional childhood before Christ till her salvation. She sheds light on the development of woman from girl, to young lady to matured woman. The author brings out examples from scripture which serves as a platform for her teaching and discussion. Her aim is to bring to the forefront unscriptural notions about womanhood and show the correct model through the Bible for the benefit of the reader. As you read this book you will be challenged and encouraged, but above all the authors desire is that you walk in the light of Gods word where Womanhood is concerned.
