

Where Eagles Fly (Five Star Expressions)

Award-Winning, Western Time Travel Romance It was supposed to be a simple summer road trip . . . now Shelby McCoy has three weeks to discover why shes been sent back in time on a lonely stretch of Wyoming highway while driving to her sisters dude ranch. Shes welcomed by the original, nineteenth-century ranchers who claim shes their new cook. A strange letter they possess could be a clue, but unraveling the mystery wont be easy with an ornery cowboy hiding his own secret and thwarting her at every turn. Cowboy Ruckert St. Cloud isnt happy about her arrival. He has his reasons, but he also doesnt trust a woman who tramps about in trousers, trying to do a mans work. He doesnt understand Sherbys sassy talk and unconventional style are products of a future age. Shelby doesnt know that behind his silent stares and horse-whispering abilities lies a lonely, tortured man. Theyre just a couple of misfits, so preoccupied with trying to discover the mystery of each other they forget to guard their hearts.

A whimsical, time travel romance...with a great, stunning, final twist.- Harriet Klausner, reviewer I LOVED IT! It had me thoroughly engrossed right up until the very end.- Lynn Janssen, author of Kates Courage (Latimers Legacy series)
