

First Aid For Lifeboat Crews

First Aid, CPR, and AED Standard is the centre of an integrated teaching and learning system that offers instructor, student, and technology resources to better support instructors and prepare students. The text includes: coverage of the 2005 UK Resuscitation Council Guidelines; current information on injured and illnesses: Core information for first aiders presented in a clear and straightforward format; skills drills that offer step-by-step explanations and visual summaries of important skills. Flowcharts: Reinforce the decision-making process and appropriate procedures; decision tables that provide a concise summary of what signs first aiders should look for and what treatment steps they should take.
