

Wealth Building Strategies in Energy, Metals and Other Markets

How to find diverse investment opportunities in the emergent global economy. This just-in-time book will help any investor find safe havens that will turn the economic downturn into a unique wealth-building experience. As long as stocks continue to post new highs and surprising lows, investors will need dynamic strategies to make a profit. Wealth Building Strategies in Energy, Metals, and Other Markets explains that money management and long-term trend identification are the keys to investing success. This groundbreaking book includes a proprietary investing system that targets the widest possible array of global indexes with low correlations. Examines what's next for the housing and energy markets. Breaks down major topics such as banking, credit, inflation and deflation, and the mortgage bubble, and shows investors what to expect. Offers a key to turning finances around and a path for continued successful investing. The author, host of the popular Goldseek Radio show, includes frequently asked questions and offers expert investing advice.
