

Cassandra in the Mirror

This is a spiritual, esoteric romance, and strictly one for readers with an interest in metaphysics and secret knowledge. Cassandra Morgante is part human and part stellar. She was born to fulfil a prophecy and help the evolution of humankind into a race of immortal beings. When she meets Oscar OLeary, a spiritual artist and initiate into the mysteries of the Earth, they fall in love and a new humanity becomes possible. Only Oscar can help Cassandra achieve her mission. But first he must learn to heal the wounds of his troubled past. Although Cassandras love for Oscar is a time-travelling romance spurred by an ancient prophecy, the lovers journey is surprisingly human.
