

God Does Not Exist: 45 Reasons that Prove Why we Do Not Believe in Gods Existence any more

In this deeply analytical book, the author Simon Alberts tries to explain the flaws and faults when it comes to proving that God exists. Using a number of theists arguments claims and explanations, the author gives answers to questions that many people have thought and wondered over the years. Through the chapters of the book, there are generated simple examples that prove in a few very simple steps why arguments made by the Theists cannot be explained by actual facts. Lastly, Simon Alberts analyzes the complex Biblical terms so that the reader can get the best picture possible of the arguments based on Gods existence and makes their instability clean and clear through scientific facts and arguments using even quotes made by the people of the mind and culture over the years. Whether you believe in God or not, this book is the one that will make you decide and create a more sustainable picture of what gaith really is.
