

Cross-Examining The Case for Christ

In a detailed response to Lee Strobel's popular book of Christian apologetics, *The Case for Christ*, author Red MacGregor examines Strobel's arguments and finds them fallacious, empty, and even misleading. MacGregor analyzes Strobel's rhetoric and answers his numerous supernatural claims, from a perspective that acknowledges twenty centuries of advancements in science, technology, and humankind's understanding of how the world works. MacGregor draws on examples from parenting, politics, and culture, setting the timeless debate between Faith and Reason in contemporary terms. In *The Case for Christ*, Strobel urged readers to think of themselves as jurors at a trial -- here, at long last, is the other side of the case!
