

God Needs Salvation: A New Vision of God for the Twenty First Century

Many people today have deserted the old forms of religion. But does this make them any the less religious? Hugh Rocks message is that people are inherently religious. The necessary task today is to articulate anew the reality of religion. In a wide-ranging survey, that draws together the past fifty years of liberal theology and sociological discussion about the interface of religion and popular culture, he concludes that it is in our new respect for the autonomous self-fulfilment of the potential of every persons life that can be found the message transferred out of the New Testament.
