

Day Trading Mistakes (Trend Following Mentor)

There are countless books on the market which give the reader the impression that trading is easy and riches can be earned without effort. There are trading robots advertised with amazing results. These black box systems promise high win ratios and large profits. However the truth is far from this. This is the goal of this short book to give you the reality of trading and to strip away all the hype and hope. Learn the most common mistakes Day traders make and avoid them.
