

Crowdsource Your Success: How Accountability Helps You Stick to Goals

Want to surround yourself with motivating people who can help you succeed with any important goal? Or regularly meet with one person who inspires you to take action? Are you tired of starting a habit (or working toward a goal) and then quitting after a few days? In *Crowdsource Your Success*, you will discover the power of public accountability and how it is the secret weapon of successful millionaires (even billionaires) all across the world. No longer will you need to work on goals in isolation. Instead you can surround yourself with people who cheer on or coach you during those moments of doubt. To be accountable, all you need is a clear goal and a willingness to let others help you achieve it. If you've ever read or listened to Napoleon Hill's book *Think and Grow Rich*, then you know that masterminding is an important ingredient to personal success. The problem? Many listeners are left wondering: How do I connect with a group near me? Or, more importantly: How can I find people all over the world who share a similar goal? These two questions (plus a whole lot more) are answered in *Crowdsource Your Success*, written by 22-time number-one Amazon best-selling author S.J. Scott. What insights will you learn about this strategy? Seven benefits of adding accountability to your daily routine. The number-one rule for getting any type of result in your life. Five real-world examples of people who use accountability to create amazing changes in their lives. What are the different types of accountability? In his book, S.J. covers seven types that you add to your life, including: Using a mobile app Joining a virtual community Working with an accountability buddy Forming a mastermind group Working with a coach
