

Southern Oregon Timber: The Kenneth Ford Family Legacy (Transportation)

Forestry defined the culture of southern Oregon. Kenneth and Hallie Ford rose from humble beginnings with a single sawmill during the Great Depression and helped transform the states timber industry. They founded one of the largest privately owned wood-products companies in the country, bringing the title Timber Capital of the Nation to Roseburg, Oregon. Their legacy remains today through the Ford Family Foundation, dedicated to educational grants and community improvements. Author R.J. Guyer explores the evolution of logging and the challenges faced by the hearty men and women who plied this trade.
