

My Trading Journal: Your Workbook to Tracking and Managing Your Stock Trades (Green Cover)

A trading journal is a way for you to keep track of your trades. Its a way for you to manage your business, and it helps you become better by seeing what marks you are hitting and what you are missing. It is only a reflection of yourself and does not judge or criticize. Often times I hear beginners saying, well why cant I use Excel or a computer to record my progress? The problem with this theory is that while you can, it is usually unfeasible when trading because you are focused on the charts and stocks. By opening new files and documents it becomes a distraction and often times you stop recording and writing in the journal over time... ***This is the green cover trading journal***
