

# Teaching Students About Death: A Comprehensive Resource for Educators and Parents

Designed as a complete and reliable source of information for teachers, guidance counselors and parents of school-age children, this pioneering book gives the little-understood subject of death education as thorough a treatment as it has ever received. Each chapter is written by a different expert in the field, which allows for a valuable exchange of ideas and viewpoints. The changing character of children's views of death and the different death education models now in use in North American schools are given detailed attention.
