

## Collected Writings of W.D. Gann - Volume 1

This collection of writings contains an assortment of Marketing Brochures which were used by Gann to market his courses & services, Annual Forecasts for a year in advance, interviews with Gann & articles about him, & a selection of his Trading Records. These writings are very enlightening, explaining in clearer words than in his books & courses, Gann's methodology and vision of the markets. There are extremely important clues in these writings which are often overlooked, like the clues in the Ticker Interview, to Gann's background research & to the importance & purpose of each of his courses. These writings also help to draw a personal portrait of the master himself, & to trace his development over the years.
