

Banished To Eden

Can you imagine a world where women rule and men are superfluous? A world where a woman can have sex only one time and a second time warrants the death penalty? In his debut novel, *Banished to EDEN*, U.S. Marine, Sr. throws you head on into just such a world where Shannon discovers the government put a chemical in the public water to chemically castrate its citizens. After Shannon stops drinking the spiked water, her body begins normal growth and she develops large breasts and long hair. Shannons choice is to drink the spiked water and become normal again or fight the system. Shannon is a fighter! Marines tale is set in a futuristic world quite unlike our own, yet sprinkled throughout with hints of the past we now know as our present. Although there is a dramatic transition from the present to this futuristic world, the reader is faced with the frightening yet intriguing realization that such a world could someday exist... and that it could very well be our own.
