

Super Stocks

Target the Super Stocks that deliver huge returns. One of the most successful investing books ever published, Super Stocks showed investors how to use innovative techniques and fundamental analysis for valuing stocks and predicting future profit margins. You'll gain valuable insight into Fisher's original thinking for valuing stocks and predicting future profit margins. A pioneer in the use of the Price Sales Ratio—a powerful analytical tool—Fisher regales readers with instructive tales of the businesses he invested in and profited from. Super Stocks gives a historical perspective on how Fisher successfully researched companies and stocks who he saw and what he asked to get a better read on profitable returns. As rich in investment war stories as it is in knowledge.—The Motley Fool
