

Charles Darwin: Voyaging: Volume 1 of a biography: Voyaging Vol 1

Few lives of great men offer so much interest - and so many mysteries - as the life of Charles Darwin, the greatest figure of nineteenth-century science, whose ideas are still inspiring discoveries and controversies more than 100 years after his death. Yet, only with the publication of *Voyaging*, the first volume of this acclaimed biography, do we have a truly vivid and comprehensive picture of Darwin as a man and a scientist. The second and final volume of Janet Brownes biography of Darwin - *The Power of Place* - is also available from Pimlico.
