

Crazy For A Geek Girl: A Novella (Contemporary Lesbian Romance)

A stressful job in finance and investing has made it impossible for Netty to have any semblance of a functional love life. The long hours are taking their toll and as a huge new project falls in her lap, Netty is just about at her wits end. Late one Friday night at work, however, life brightens when a knock on her office door unveils adorably geeky Henrietta, her companys computer consultant. Henry computer geek, gamer, sweetheart takes Netty on a ride that makes her question her notions of life and love, work and play, and acceptance of herself and others. Always the pretty popular girl, Netty finds herself irrevocably changing as she gets intimate with nerdy Henry, prompting her to wonder whether the path shes been on has actually been the right one for her. Will Netty be able to shrug off the negativity around her relationship at work, navigate the conflict of interest in getting involved with her companys consultant, and finally start living true to herself? Or will this lesbian love affair end like all the rest? Also included in this book is are excerpts from Nicolette Danes novellas My Writing Professor and The Sexy Librarian.
