

The Everyday Fish Cookbook: Simple, Delicious Recipes for Cooking Fish

Foreword by Jean-Christophe Novelli. Fish is high in protein, low in fat - and rich in nutrients. So it is a food we should be eating more of, and including regularly in our meals. The recipes in this book are approachable, flexible and un-complicated, advising on buying, preparation, and freezing as well as cooking. Also included are fish varieties that are often cheaper and less under threat than the most popular fish but offer a delicious alternative, such as pollock, sardines, coley and herring.
