

2011 Update Are you ready for self-transformation? Many spiritual teachers promise transformation, but Georges Ivanovitch Gurdjieff delivers. Gurdjieff (1872-1949) was born in Alexandropol on the border of Russia and Turkey. Gurdjieffs teachings contain many concepts that, taken together are referred to as the Work. The idea behind the Work is that our first birth is our physical body, which is all we need to get through life. But we are capable of developing into something higher, just as an acorn can stay an acorn and die or develop into an Oak Tree, we can develop into something higher. Gurdjieff offers a radically original version of man and his potential for self-development. Gurdjieff, A Beginners Guide: How Changing the Way We React To Misplacing Our Keys Can Transform Our Lives is a beginning guide to the teachings of Gurdjieff. Practical and eminently readable, it leads the reader through some of the main concepts necessary for self-transformation.
