

# Headslap

This books going to raise a howl, promises Deacon Jones. You wait and see! From a small rural town in Florida to the NFL Hall of Fame, this is the story of Deacons rise to the top of the heap in the National Football League. Headslap refers to the lightning move popularized by Jones in the early days of the game, when a player could rattle the cage (or at least the helmet) of a blocker by belting him alongside the head. And Deacon did this better than anyone in the game. They werent jabs; they were full left hooks and right crosses. So devastating was this move that the League outlawed it. Headslap has a deeper meaning as well: its the jarring feeling you get when you realize that things arent always what they might seem to be.
