

This volume of proceedings includes new and original scientific results along with recent developments in instrumentation and methods, in invited and contributed papers. Researchers and graduate students interested in hyperfine interaction detected by nuclear radiation as well as nuclear quadrupole interactions detected by resonance methods in the areas of materials, biological and medical science will find this volume indispensable.

Commodity Trading Guide 2012, Fathers- The Missing Component in the African-American Family, Gregorys Sermon Synopses: 200 Expanded Summaries, The McGraw-Hill 36-Hour Course: Business Presentations, The Boy in the Book, Chasing the White Dog: An Amateur Outlaws Adventures in Moonshine, Entertaining with PKP,
