

The Essential Hip Mama: Writing from the Cutting Edge of Parenting (Live Girls)

It's been over a decade since Ariel Gore, in a caffeine-induced brainstorm, invented Hip Mama as her senior project in college. The zine that's been called fun and irreverent by USA Today, delightful by Glamour, and cutting-edge by the Chicago Tribune has grown up alongside Gore's daughter, covering subjects from weaning to home schooling with a political edge and a puckish sense of humor. The Essential Hip Mama captures the heart of a decades worth of earthy, honest, soulful parenting and topics from circumcision to dating, abortion to the belief that mothers don't fart. Gore has gathered in one volume the whispers and conversations heard in homes, on playgrounds, and in coffeehouses around the country. Reassuring and hopeful, The Essential Hip Mama is a brilliant testament that one becomes an expert simply through the act of mothering, echoing Gore's own words, "Whenever I've needed parenting advice, I've put out a call for submissions."
