

How to Stop Caring so Much: My Little Secret to Achieving Eternal Happiness 10X more...

Why should you listen to me? This book is not meant to be a read and memorized like your history textbook. Nor it is meant to teach you how to become happy overnight. The purpose of this book is to give some of the highlights of the path that I encountered, experienced and journeyed toward discovering the power and pursuit of happiness. Here's what you will discover by reading this short book: -How to Stop Caring So Much and Be Happier -How to Stop Caring So Much about Your Boyfriend -How to Stop Caring So Much about What Other People Think -How to Stop Caring So Much about Other People -How to Stop Caring So Much in a Relationship I do not care even if I make a dime out of this book. That being said, I hope people can get hooked by the title of this book and give it a reading chance. I know that most people don't value books that are priced too cheaply, so I've decided to price it as cheap as I possibly can to filter out those dumb people who think that paying \$10 - \$20 more would bring them more changes in life. The fact is, most of those 200 page books will be sitting in your shelves or your kindle library. Even if you read all that fluff, I bet that you wouldn't be able to fully apply it and get your investment back. All in all, this book is meant to assist you in your self-discovery and to help solve the problem you're facing from caring too much. To me, I knew early on that caring too much was a major characteristic flaw of mine until one day my body felt like it was being weighed down 10 tons. More than just to care about others, this short book was also about spreading happiness to everyone and giving them hope in pursuit of happiness. Melissa Mayer
