

In Process: Creating An Investment Process For All Seasons

This book focuses on the Investment Process. It is broad and thought provoking. It is not intended to be an answer and shouldn't be construed as a recommendation to purchase any of the investments referenced. Creating an Investment Process is a key part of investing and will help you stay invested when market conditions become challenging. Timing isn't everything, but TIME is... My sincerest hope is that when the markets challenge you, you'll be prepared because I shared a framework that helped to clarify your Investment Process; a process that's personal to you and takes into account your circumstances, risk tolerance and financial goals. Winston Churchill once said, To improve is to change; to be perfect is to change often. Your Investment Process should be a living, breathing document that changes as you change. It should always be IN PROCESS; much like your life. Please follow me: @sjm4k
