

Koran Curious: a guide for infidels and believers

Koran Curious is arguably the most concise examination of the Islamic faith on bookshelves today. Werleman bravely goes where only angels dare tread, and he does so in a manner that Muslims will find revealing in regards to the historical origins of their own faith. An end-to-end read of Koran Curious will leave you with not only a deep-level understanding of Islam, it will also explain why the worlds fastest growing religion has indeed been hijacked and misinterpreted by Islamic extremists and Christian-Jewish influences alike.
