The act of sharing knowledge and skills is a valuable resource. It serves as a tool for growth and learning, and it indicates the potential of a person to become a powerful asset that adds value to the individual and the organization. In Teachable Points, author Reginald W. Sykes Sr. offers operational lessons for frontline supervisors based on the principles of learning and teaching. He provides real-world solutions to everyday issues in the workplace. Intended for both new and seasoned managers, Teachable Points presents lessons grounded in basic management principles and based on action learning that is, learning from your day-to-day, on-the-job work experience. It discusses the role and purpose of a frontline supervisor, effective management practices, the purpose of business, the importance of getting and keeping customers, ways to provide service, and the fundamentals of managing personnel.
