

The Invasion of the Dutch East Indies (War History)

Between 1966 and 1980, the War History Office of the National Defense College of Japan published a 102-volume military history of Imperial Japan's involvement in the Pacific War. This book, the first full and unabridged translation of a volume from the series, describes in great detail the operation to capture the Dutch East Indies, which at the time was the largest transoceanic landing operation ever attempted.
