

The Web Startup Roadmap: Navigate Your Way to a Successful Online Business

Web startup expert JP Stonestreet reveals the secrets you need to know if you want to start, market, run and potentially sell a successful online business. His roadmap walks you through each step of the process using non-technical terms and easy to understand examples. The checklists will help you stay focused and do what needs to be done. The book is full of practical advice based on over 17 years of real world experience in the software and web business, which includes the sale of a successful web startup. If you're serious about getting started, this book can help you navigate your way to a successful online business!
