

## Granola: The Ultimate Recipe Guide

Granola is typically a mixture of oats, nuts or dried fruits bound together with honey and oil, then baked. It can be baked in clumps for a looser granola cereal or pressed together to make bars. Store-bought granola can be filled with artificial ingredients and preservatives. By making it at home, you can control both the types of ingredients and their quality. We have collected the most delicious and best selling recipes from around the world. Enjoy!
