

He can NEVER be She

Gae Hall recounts the story of her husband's transition from an Assemblies of God pastor with a passion for ministry to a man consumed by the desire to cross-dress and ultimately undergo sexual reassignment surgery so as to become known as a woman called Christine. Together with her two young children Gae made a desperate flight from their home in France, risking arrest and imprisonment upon arrival in her home country of Australia. Her husband brought charges against her under the Hague Convention for International Child Abduction. After being granted custodial guardianship of the children Gae set about making a life for her family in Australia. The remaining chapters of her book draw on Biblical principles to expose the lie of trans-genderism and to outline a course of action Christian women might take to stand against trans-gender behaviour in their own marriages and family environments.
