

Lost in America: A Journey With My Father

He walks with me through every day of my life, in that unsteady, faltering gait that so embarrassed me when I was a boy. Always, he is holding fast to the upper part of my right arm. As we make our way together, my father - I called him Daddy when I was small, because it sounded so American and that is how he so desperately wanted things to seem - is speaking in the idiosyncratic rhythms of a self-constructed English. So Sherwin Nuland introduces Meyer Nudelman, his father, a man whose presence continues to haunt Nuland to this day. Meyer Nudelman came to America from Russia at the turn of the 20th century, when he was 19. Pursuing the immigrants dream of a better life but finding the opposite, he lived an endless round of frustration, despair, anger, and loss: overwhelmed by the premature deaths of his first son and wife; his oldest surviving son disabled by rheumatic fever in his teens; his youngest son, Sherwin, dutiful but defiant, caring for him as his life, beset by illness and fierce bitterness, wound to its unalterable end. Lost in America is equally revealing about the author himself. We see what it cost him to admit the inextricable ties between father and son and to accept the burden of his fathers legacy. In Lost in America, Sherwin Nuland has written a memoir at once timeless and universal.
