

# The Art of Judgment: A Study of Policy Making (Rethinking Public Administration)

This classic book by Sir Geoffrey Vickers first published 30 years ago speaks to both the student/academic and the practitioner interested in understanding decision-making in organizational settings. As the biographical essay elucidates, Vickers ideas arose from his rich and multifaceted career as a practitioner. His work provides for the integration of theory and practice that is without parallel anywhere in the literature. Written in a lively and accessible style The Art of Judgment continues to be a seminal work for scholars seeking to develop an interpretive and critical account of management and organization. This work is a study which transcends both a narrow and scientific view of administrative behaviour an
