

Managing Emerging Technologies And Organizational Transformation in Asia: A Casebook (Series on Innovation and Knowledge Management)

This book provides organizational and managerial views on adopting emerging technologies for organizational transformation. The variety of issues and technologies covered in this book includes Radio Frequency Identification Technology (RFID); Enterprise Systems and Inter-Organizational Systems (IOS); Knowledge Management (KM); E-Business and E-Government initiatives. Eleven in-depth case studies documenting experiences and lessons learned in organizations and government agencies from the Asia Pacific region such as China, India, Malaysia, and Singapore are presented.
