

Meridian Massage: Opening Pathways to Vitality

The meridian pathways of the human body were mapped out by gifted healers in China thousands of years ago. Working with the invisible energy (Qi) that flows through these pathways, they were able to heal illness. Perhaps more importantly, they were able to support vitality in ways that prevent illness and encourage wellness. Vitality is an expression of energy. Meridian Massage is a hands-on modern application of this ancient wisdom to balance mind, body, and spirit for health and happiness. Knowing how to work directly with energy opens a powerful dimension for massage therapists and bodyworkers to access through their work. An organized and practical integration of modern energy work and ancient Chinese medicine, Meridian Massage can complement any form of hands-on healing.
