Money Without Matrimony answers the questions unmarried couples have when developing plans to secure their financial futures including: Pros and cons of merging your finances Determining ways unmarried partners should own property Strategies to ensure that your wishes will be carried out under all circumstances The importance of partnership agreements and other legal documents for unmarried couples Authors and Certified Financial Planners Sheryl Garrett and Debra A. Neiman guide you and your partner through the necessary steps to protect each other from potential financial ruin in much the same way that federal laws help protect married couples.
