

The Phoenix File: A Nation of Slaves

THE PHOENIX FILE is written as a satire focusing on the destructive results of religious atheism as it is imposed in the form of law. If it goes unchallenged every citizen will be required to live within THE BARN of a culturalized atheism. The future of freedom is in the balance. A choice lies before our nations. If we want continued freedom we must re-examine and reassert our founding Judeo-Christian values. Failing this our children will be subjected to a fully intolerant and militant atheism. Pragmatic atheism can never take credit for generating our historic religious freedoms, or such things as our system of law, property rights and the guaranteed right to life. Once these God-given rights and freedoms are lost they are only recovered at great cost. So either we stand and insist that our historic values be defended or become nations of slaves. Few, it appears, have the heart for such a struggle. Our children will live with the choice made. May I suggest therefore that you read carefully?
