

Legal Framework for Development of Transboundary Oil and Gas Resources: Case studies of UK and Norway, Australia and Timor-Leste, USA and Mexico (Oil and Gas Law Book 3)

Extension of coastal states sovereign rights by inclusion of maritime areas, such as the continental shelf and exclusive economic zone led to booming offshore exploration and production activities. However, extension of these rights also led to disputes between neighbouring states due to their high desire to possess these valuable resources. Consequently, easily applicable, binding legal regimes and obligatory practices are crucial to avoiding potential future issues. This book provide analysis of legal framework and industry practices which exists for neighbouring states to develop transboundary offshore oil and gas resources. Case studies of three pairs of neighbouring states, such as: Norway UK, USA Mexico and Australia Timor-Leste illustrate oil and gas projects cycle from exploration to cessation of production and decommissioning. This is the third book of the Oil and Gas Law Series.
