

Victory Over Visitation: Wars and Winners

Each year hundreds of families are drastically changed because of family violence. Unfortunately, I've noticed that in the past 10 years, the growing number of family violence cases is related to child support visitation and visitation exchange. There are many laws and rules to punish those who commit such acts but very few that actually educate parents on how to avoid the violence and/or how to defuse the conflicts affiliated with child support visitation and visitation exchange! Victory Over Visitation was written to make parents, custodial and noncustodial, aware of the problems that occur when visitation is violated, to provide solutions to prevent violence and to stop future violence actions between both parents. Victory over Visitation identifies the pitfalls parents create which leads to tension, loss of visitation and sometimes, violence. Failure of a custodial parent to allow the noncustodial parent to visit or even see their children is oftentimes overlooked by the courts, unless a court ordered child support payment is missed. This system of injustice towards the custodial parents visitation violation must stop and BOTH parents need to understand their accountability. As a father Victory Over Visitation will help ease your frustrations and educate you on how to best handle a visitation violation such as how to properly document violations, how to ask and file for help and other valuable lessons to ensure that you stay on the right side of justice. Victory over Visitation offers proven solutions to reduce and minimize family violence as well as reduce fatherless homes. You will be able to increase your role as a father and understand your responsibility in your child support case as it relates to visitation and visitation exchange.
