

Predator in a Dress: A Mans Guide to Escaping the Brutal Unfairness of Divorce in America

The author is a divorce attorney in Minnesota. He is amazed by the unmitigated bias shown by judges against men. The men watch as their ex-wives give highly rehearsed testimony in custody hearings. The wives win custody of the children and they get child support payments for the next fifteen years and spousal maintenance even longer. The fact is, divorce is a profitable thing for a woman. A heartless woman will get married just so she can get divorced. The purpose of this book is to protect men from suffering the losses caused by marrying such a woman.
