

Proceedings of the III Icfa School on Instrumentation in Elementary Particle Physics: Rio de Janeiro, Brazil, 16-28 July 1990

The proceedings is mainly devoted to experimental high energy physics which comprise (i) review articles on experimental techniques for the detection of particles and radiation; (ii) articles on experimental and theoretical challenges for particle physics in the nineties; (iii) description and laboratory guide to small table top experiments that were performed during the school and which can be reproduced easily for teaching purposes.
