What reviewers say about Jake Bernsteins other books on profitable investing The Handbook of Commodity Cycles A Window on Time If theres a secret to the market, I believe it can be found in these pagesIn my judgment, this is the most important addition to commodity literature in recent years. It is destined to become a classic. Fred Colton, Commodity Outlook The Investors Quotient The Psychology of Successful Investing in Commodities and Stocks This book is a welcome breath of fresh air in what has been a too-long avoided subjectthe psychological reasons why some people win and most others lose in the commodity market. More than that, Jake Bernstein proves in this book he is an excellent teacher, and clearly and candidly shows how greater knowledge of yourself can become your most effective trading tool. Its a must for every traders library.
