

# Religion Free : How Christopher Hitchens and Richard Dawkins re-energized the Religion Free Community

Christopher Hitchens and Richard Dawkins give voice to the aspirations of hundreds of millions of atheists and secular humanists around the world. The duo are the most influential activists for a generation, energizing secular humanists and non-believers through their landmark and best selling books *The God Delusion* (2006) by Dawkins and Hitchens *God is Not Great, How Religion Poisons Everything* (2007). Promoting rational principles and common sense logic, Hitchens and Dawkins argue for the advancement of reason, science and secularism over blind obedience to religious dogma and worn out, stagnant mythologies. In *Religion Free*, Keith Howard assembles an anthology of the two intellectuals very finest thoughts selected from their essays, debates, lectures, and media interviews, supplemented with correlated news stories and excerpts from other prominent atheists and activists. The result is a comprehensive collection of the most compelling opinions and ideas of the modern day humanist and religion free communities.
