

On this journey from Ash Wednesday to Easter Day, the reader is invited to become a pilgrim with Brother Ramon. Each day there is the opportunity to stop and reflect on the gospel story, drawing insight from the experiences of those who were there during the events of the first Easter, finding inspiration and strength for the greater journey of our lives. Suffering and glory are intermingled in real human experience in this book, which is designed for personal and group use, for Christians of all traditions. The Bible readings are included in the text and each day finishes with a prayer or point for meditation.
